

IDFC - FIRST Marketing Strategy 2026

Marketing Management

Group 5

Chetna Joshi, Chhavi, Ragini Singh, Rozy Parveen, Siya Sharma, Surya Jaiswal, Varsha

Primary Research and Insights

IDFC First Bank

- Chaotic & unstructured branch environment
- Product-led, rushed interactions
- Verbal & unclear communication of charges
- Weak explanation of mobile banking
- Customers stay mainly due to inertia

HDFC Bank

- Calm, organised & professional branches
- Need-based, consultative selling
- Clear & structured policy communication
- Strong app demonstration & reassurance
- Higher customer trust & confidence

Secondary Research and Insights

Market & Digital Context

- Digital banking is now mainstream
- UPI dominates daily transactions
- Urban internet usage is near saturation
- Mobile-led financial behaviour is common

Consumer Behaviour & Trust

- Consumers actively use banking apps
- Multi-bank relationships are common
- Full bank switching is relatively rare
- Inertia driven by salary accounts & EMIs

Trust & Decision Factors

- Trust shaped by transparency & clarity
- Experience matters more than branch count
- Legacy builds comfort, not preference
- Ethical conduct influences consideration

Strategy: Defining Our Core Objectives

- **Branch Trust & Professionalism**
- **Primary Bank Conversion Focus**
- **Promoting Digital Value**
- **Need-Based Customer Engagement**
- **Clear Rules, Clear Communication**

Comms Planning: Delivering the Right Message

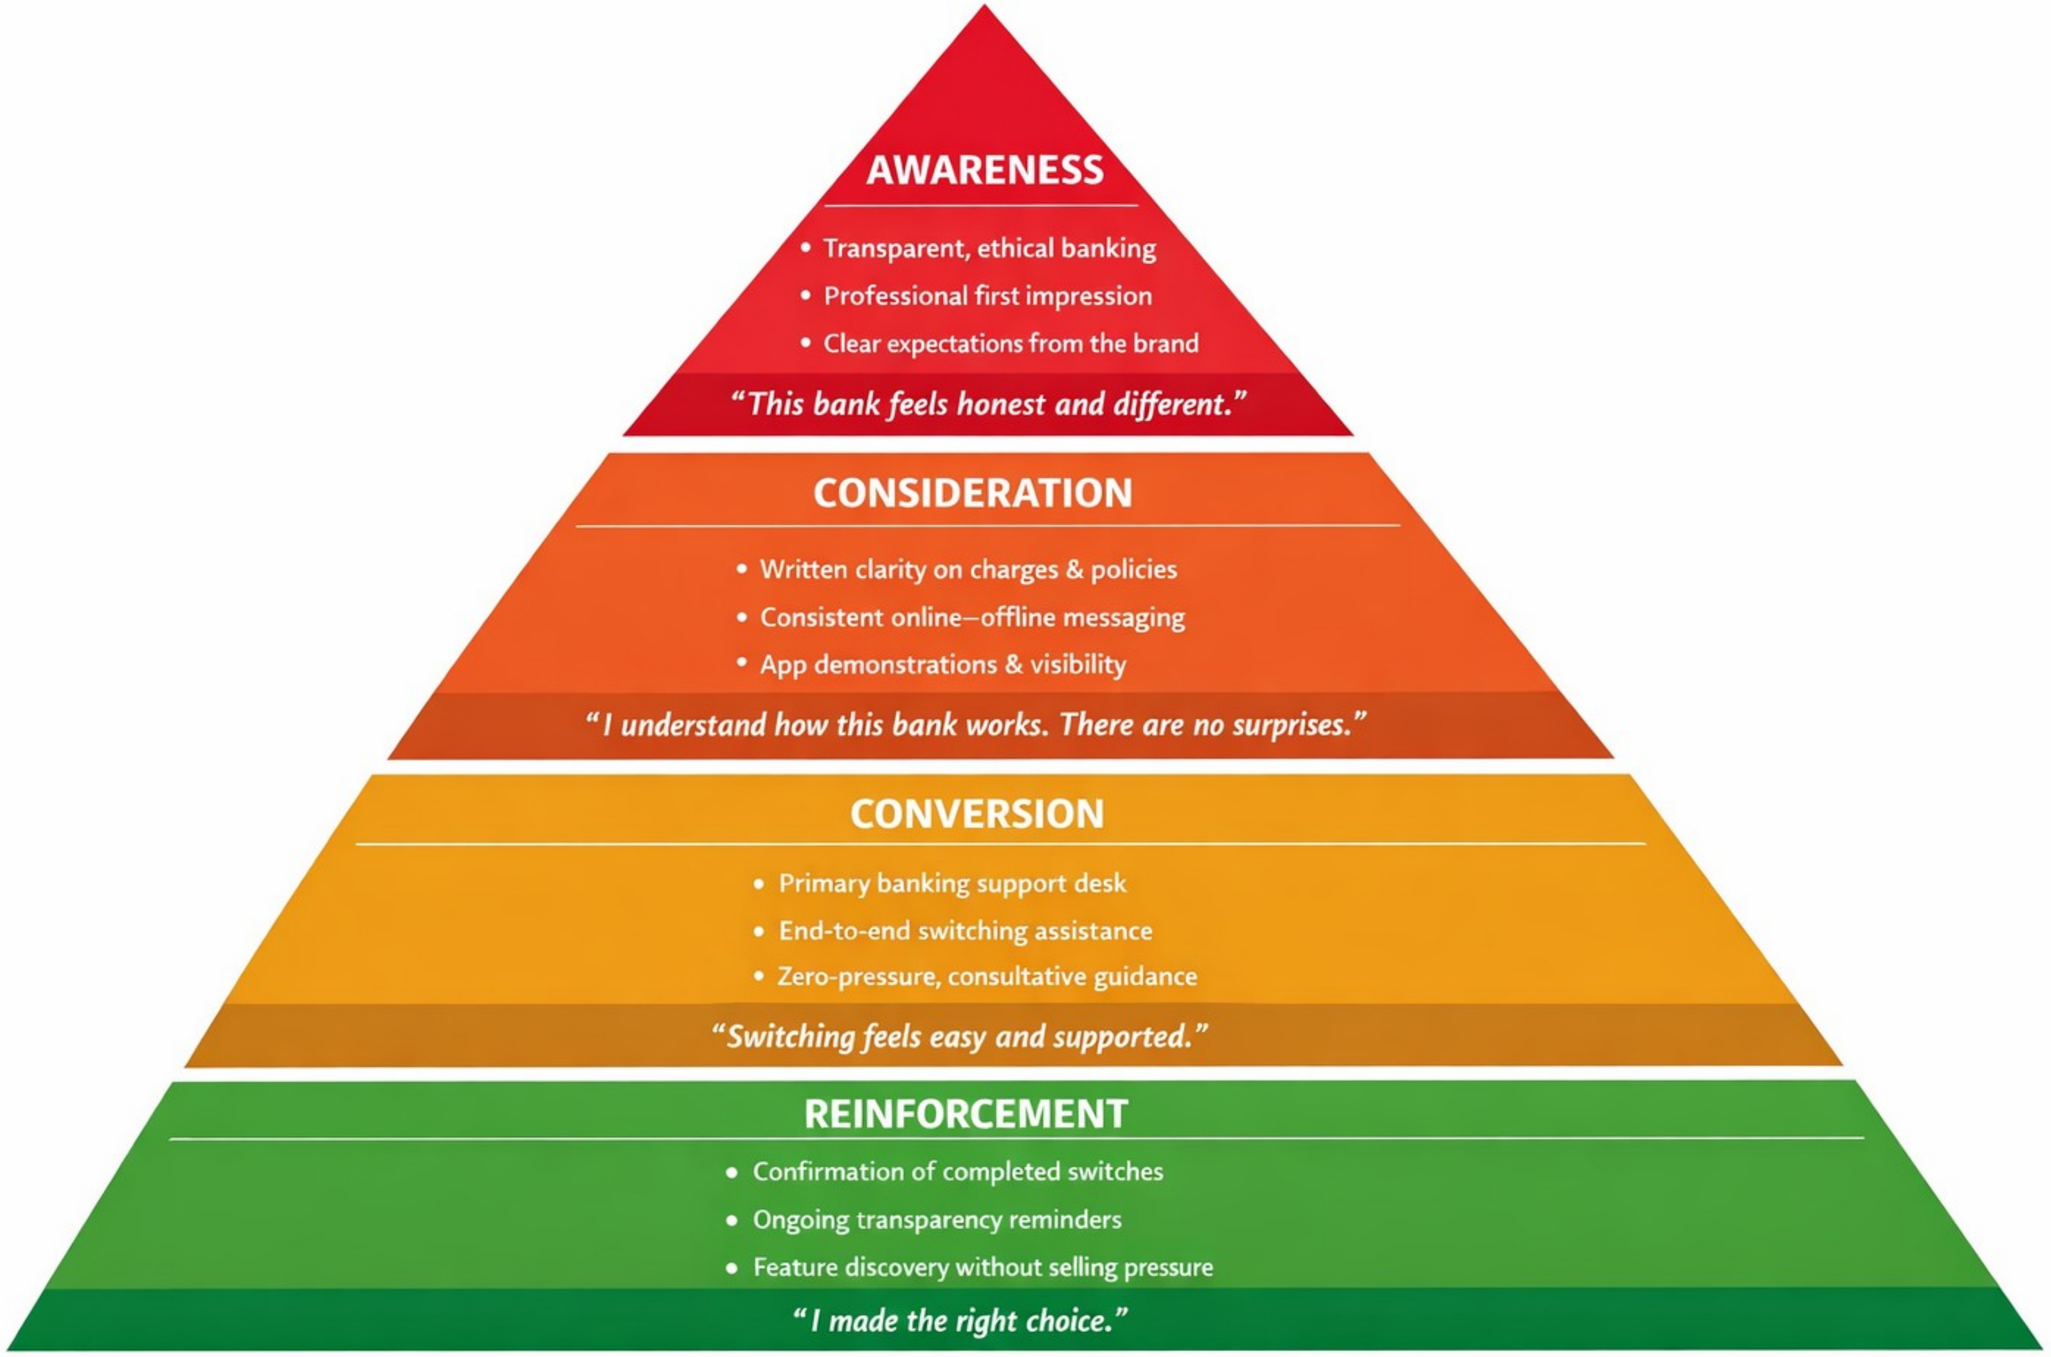

The Communication Challenge

Many urban, affluent customers stay with legacy banks not because they are satisfied, but because switching feels risky and tiring. Past experiences have made them cautious, and while they may be open to new banks, they often doubt whether these banks will deliver consistently. This hesitation and inertia are the biggest barriers to growth.

The Solution: The "Primary Bank" Narrative

Instead of pushing products, the focus shifts to understanding customer needs and guiding them through the switch. By showing clear processes, professional support, and a smooth transition, the bank reduces the fear of switching and builds confidence in becoming the customer’s primary bank.

IDFC FIRST BANK – COMMUNICATION PYRAMID

TOUCHPOINT OPTIMIZATION

1

Physical

1. Standard brand servicescape
2. Internal Marketing

Outcome

- Improve first impressions
- Reduces trust deficit at entry level
- Builds professionalism comparable to other bank

2

In- Product

1. Product transparency card (physical+ digital)
2. In App product explainer

Outcome

- Reduce ambiguity
- Increases trustand fairness
- Convert verbal promise into tangible proof

3

Digital

1. Branch-to-digital handover
2. Proactive risk communication
3. Guided digital onboarding

Outcome

- Convert risk control into trust building tools
- Reduce customer anxiety
- Reinforce digital confidence

KPI: Measuring Success

Strategy Goal	KPI
Build trust	Customer feedback ,Complaints
Increase Digital Use	App installs , Active Users
Become Primary Bank	Salary accounts, Regular Flow
Deepen Relationship	Multi-products Usage

Thank You
