Learning Agility Field Project: Impact Lab

Case Study: Moe's Mexican Food Chain

Members: Siya Sharma, Narayani Jayakumar, Chetna Joshi, Aastha Sharma, Varsha Rani, Anjali Krishna, Shilpi

24th March 2026

Context & Objective

Context:

- Small businesses drive economic growth but face operational & visibility challenges
- Moe's operates in a competitive QSR market alongside Taco Bell

Objective:

Identify real business problems through field research

Analyse root causes

Propose a practical pilot solution

Research Approach

Field Investigation Included:

- Observations of store operations & customer flow
- Interviews with employees & customers
- Analysis of:
  - Footfall patterns
  - Payment methods
  - Customer behaviour

Data Collection:

- Notes, direct observations, and customer insights

Key Problems Identified

We identified 3 major problems:

1

Low Brand Visibility

Low awareness despite strong product

2

Non-Fresh Beverages

Powdered drinks mismatch brand positioning

3

Low Weekday Footfall

20–25 vs 50–80 on weekends

These impact both customer acquisition & retention

Selected Problem

🎯 Low Brand Visibility

Why selected:

1. Customers prefer Moe's after trying it
2. But most customers never discover it
3. Issue is **awareness, not product quality**

High impact + highly solvable problem

Impact Analysis

Who is affected:

- New customers (default to Taco Bell)
- Existing customers (no engagement channel)

Frequency:

Daily loss of potential customers

Business Impact:

- Low weekday footfall (20-25)
- Instagram reach limited (2.4k followers)
- Dependence on aggregators (Zomato/Swiggy)

Root Cause Analysis

Using Six Thinking Hats:

White Hat (Data):

Existing website, Instagram (2.4k), aggregator presence

Yellow Hat (Strengths):

Strong product quality, loyal customers

Red Hat (Insight/Gut):

Gap between product quality & awareness

Black Hat (Risks):

Low discoverability, weak digital engagement

Green Hat (Opportunities):

Content strategy, fresh beverages, SEO

Blue Hat (Conclusion):

Visibility is the root problem

Proposed Solution

Two-Layer Visibility Strategy

Own the Street

- Improve storefront signage & branding
- Increase walk-in visibility

Strengthen Digital Presence

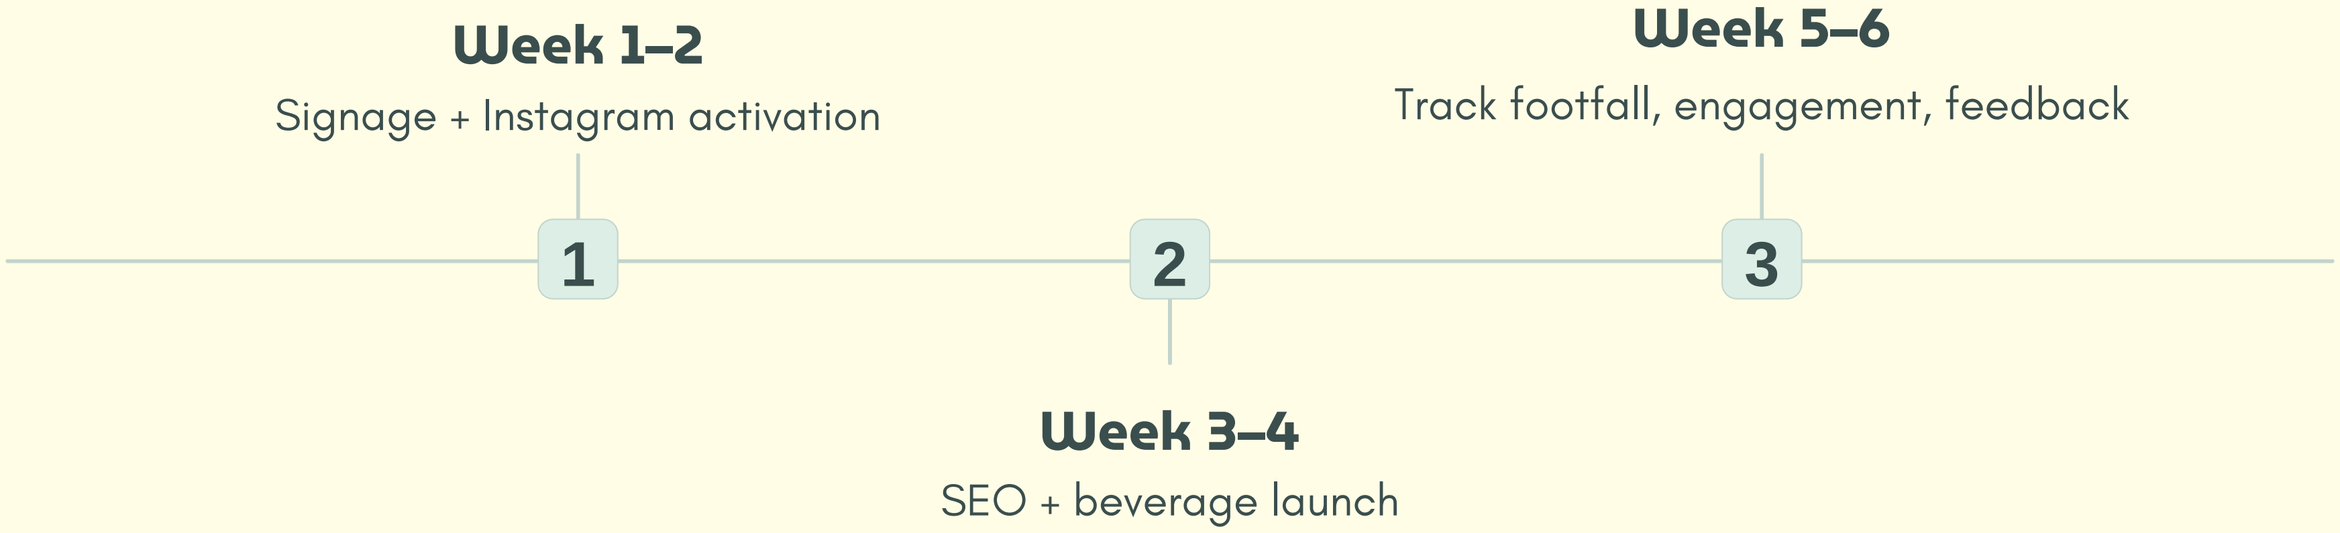

- Consistent Instagram content (3x/week)
- SEO optimisation (Google + website)
- Build direct customer relationships

Supporting Idea + Pilot Plan

Supporting Idea: Fresh Beverages

- Introduce 2-3 fresh drinks
- Align with brand positioning
- Improve experience & word-of-mouth

Pilot Plan (6 Weeks):

Resources: Low-cost, mostly in-house

Expected Outcomes, Assumptions & Conclusion

Expected Outcomes:

- Increased weekday footfall
- Higher brand recall
- Improved digital engagement
- Better customer experience

Key Assumptions:

- Increased visibility → more customers
- Instagram & SEO will improve discovery
- Fresh beverages enhance perception

Key Takeaway

Moe's problem is not quality — it is visibility

Solving visibility unlocks growth
